

Accessibility Four Transcript

And then I have noticed as I entered the voting arena that the tables themselves are frequently not accessible and I've noticed that there isn't any adaptive equipment there. I have pointed out that a couple of times and I've not yet seen any resolution to those issues at all and then in addition to that, there can be special events being held in the community whether it's a neighborhood planning meeting or a meeting being offered for voters for information or something and it's you know it may be in an inaccessible location and oftentimes I have just made note of this while it doesn't personally affect me, so I don't see them using alternate media and/or assistive technology to provide those resources and opportunities and rights to people who are more severely impacted.
