

Technology Two Transcript

Male: So instead of having to all look throughout all of, my phone number is here. Computer page one, I am going to start at the top of the page, I hit this little key here and the F key for find

Computer: Control F, find and replace dialogue, find page, edit for central value, use the arrow keys or type the value. Hold F

Male: So I had already done that, want me to look up somebody else? How about city hall? I was going to call city hall, okay. Ask them about the construction going on and whether I might be walking into it (laugh). So I type "City hall" it's my list of phone numbers.

Computer: Hall, enter, find next button to activate.

Male: I hit the enter key on my computer

Computer: (says the numbers)

Male: Now I have to get rid of this thing here, press the escape key gets rid of that and now I am on the line that says "City hall" and

Computer: Page 2, City Hall Manager's office (lists number).

Male: So those are the numbers for the town clerk and the city manager but actually I think it is the line below that, that I want

Computer: Z public works (lists number)

Male: So public works, they know all about where the construction jobs going on around town (laugh).
